

News & Events

On the occasion of the visit in Romania of His Excellency Mr. Makhdoom Qureshi, Minister of Foreign Affairs of the I. R. of Pakistan, UPB continues its collaboration with non-EU countries.

The UPB Rector, Mr. Mihnea Costoiu, signed the Agreement of Cooperation "UPB Excellence Scholarship" together with His Excellency Mr. Zafar Iqbal, the Ambassador of the I. R. of Pakistan to Romania - in the presence of the Ministers of Foreign Affairs from the two countries.

The UPB scholarship program offers financial support to outstanding international students and helps them continue their studies and reach their professional potential.

UPB received the delegation of the Embassy of the Democratic Republic of Congo to Romania. The delegation was led by H.E. Mr. Léopold ABIBO LOMALISA, Chargé d'Affaires, a.i.

H.E. Mr. Léopold Abibo Lomalisa initiated a new stage in the cooperation between UPB and Congolese universities by presenting the institutions that have expressed their intention to collaborate in the higher education area and also the high schools that wish to develop their international engineering cooperation.

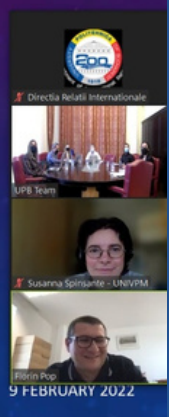

The meeting reiterates UPB's interest in developing its international dimensions and offering quality engineering study opportunities to an increasing number of international young talents.

University POLITEHNICA of Bucharest (UPB) launched the project Education 4.0: Living Labs for the Students of the Future (LLSF), in partnership with a series of universities with deep experience in the field of IoT and Data Engineering

EDUCATION 4.0: LIVING LABS FOR THE STUDENTS OF THE FUTURE

FIRST TRANSNATIONAL PROJECT MEETING

2021-1-RO01-KA220-HED-000032176

The project addresses the skills and services necessary to the digital industry of the future and will develop an international network of interconnected labs which will offer flexible options for digital study to Master and PhD students but also a viable platform of collaboration with companies in the area of industry 4.0.

Through its research infrastructure and human resource opportunities, the project will launch a collaborative platform that can truly enhance the industry 4.0 array of possibilities.

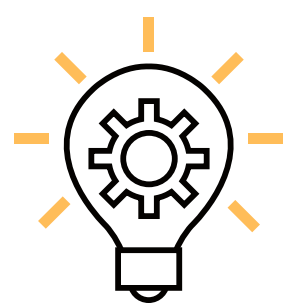

On the 8th of February, UPB received the visit of the EELISA management team (European Alliance for Engineering, Education, Innovation and Science), led by President Dale A. Martin.

They spoke to our community about the next steps we will take together in the alliance, as well as the challenges we will face together and the solutions to these challenges. We also had the opportunity to discuss the many ways in which this initiative will reshape the future of engineering in the context of European industry.

On February 11, to raise awareness on the International Day of Women and Girls in Science, #EELISAInnoCORE along with the EELISA Gender and inclusiveness workgroup organized a roundtable call "Women who make science happen".

This event gave an insight into the realities, opportunities, and challenges faced by women who are part of the inner-workings of EELISA institutions that are making an impact in the science field.

Maison de la Francophonie de Roumanie

Universitatea POLITEHNICA din București

16 martie 2022

On March 16, with the support of the President of Romania, His Excellency Mr. Klaus Werner Iohannis, University POLITEHNICA of Bucharest will lay the foundation stone at the Francophony House in Romania.

The Francophony House will host cultural and scientific events designed to promote performance and support young students and researchers. It will hold art exhibitions, theater festivals, film, literature, as well as events dedicated to students - training sessions, public debates and competitions

Equally, it will provide social support to international students and researchers to allow them to continue their studies in Romania in a participatory environment where meetings between residents can give rise to collective projects concerning artistic, cultural, ecological, humanitarian, academic or scientific issues.

UPB in partnership with the Agence Universitaire de la Francophonie - Central and Eastern Europe, launched the international competition "Turn your good ideas into a start-up", dedicated to students from AUF member universities in the region.

The final stage will take place in mid-July at University POLITEHNICA of Bucharest. The final will be attended by representatives of the economic and entrepreneurial environment, companies, partners and representatives of academia.

**CONCOURS RÉGIONAL
TRANSFORMER LES BONNES IDÉES

**POSTULEZ JUSQU'AU
15 FÉVRIER 2022**

On the 1st of March UPB organizes Erasmus+ Orientation Day.

We invite you to join our online event and discover what it's like to be a student in the largest campus in Bucharest, and find out what are the student facilities you can take advantage of.

The Erasmus + UPB office will organize the "Erasmus + Open Doors" event.

In the European Year of Youth, the ERASMUS program celebrates its 35th anniversary in Europe and its 25th anniversary in Romania. With this round age coming up, the program has come up with new opportunities for students:

- Mixed mobility, in which the period of physical mobility is complemented by a virtual component facilitating online collaboration and teamwork;
- Placement mobility with research assistance activities for students and PhD students that can be carried out in any relevant research center;
- Possibility to participate in several mobilities;
- 12 cumulative months per study cycle.

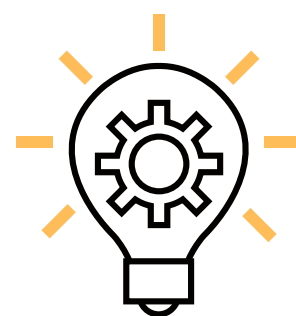

Are you passionate about engineering and want to take courses at a technical university?

Want to know if you're ready for summer admission? University POLITEHNICA of Bucharest invites you to test your limits in the Simulation of the Admission Exam, on April 9!

Come to assess your knowledge, to learn more about the university and, last but not least, to discover more about student life.

The format of the simulation is the same as the entrance exam that will take place in the summer, and the subjects are proposed by professors from the university.

The exam takes place in a single day and lasts 3 hours, during which time you will solve both the compulsory and the optional exams. You will also have the opportunity to meet our students, eager to answer all your curiosities.
